## THE GOLD FIELDS.

Hon. Frank Jones Talks of the  
Klondike Country.

Says There is Plenty of Gold There But  
Men Must Work to Get It.

Everybody in this city is interested in  
the "Klondike" stories that are put out  
from day to day regarding the millions of  
dollars that are being picked out of the  
great Yukon river. The stories are con-  
tradictory in such a manner as to leave a  
doubt in the minds of many citizens as to  
whether any of the stories could be be-  
lieved that are now being printed regard-  
ing the hardships and great finds.

Last evening a HERALD man enjoyed a  
pleasant chat with Hon. Frank Jones, who  
has just returned from a nine day's stay  
at Seattle, Washington Territory, which  
is the headquarters for Klondike expedi-  
tions, and his stories of the scenes that  
can be witnessed daily a full of interest  
and prove that the reports of the immense  
amount of gold in Alaska have not been  
exaggerated. Said he: "Seattle is jammed  
full of people. The whole city looks like  
Washington street, Boston, on a busy day.  
Steamers are leaving there every day car-  
rying parties into the gold regions by the  
thousand. It doesn't make any difference  
regarding the size or seaworthiness of  
steamers, they are being packed with hun-  
dreds, all bent on reaching the gold  
fields first. It is now impossible to en-  
gage transportation by steamer, and as  
fast as the big vessels tie up they are  
loaded to the decks, and the excited for-  
tune hunters are willing to take passage  
in the hold or in a cage with out any bunk  
to sleep on."

"Did you see any men that had re-  
turned from the gold fields?"  
Yes, I saw a number and one man  
had just returned to Seattle after a resi-  
dence of nine years in Alaska. He had a  
large amount of gold which he exhibited  
and which he claimed from the quartz  
by hand. A big shipment of gold arrived  
at Seattle while I was there and men are  
managing to get through from the frozen  
districts every day and some of them have  
made immense fortunes in a short time.  
They claim the richness of the gold fields  
have not been told and that the most val-  
uable claims are on the American side.  
The Canadian government makes you pay  
a handsome tax on the land you make out.

"Are the stories about the men pick-  
ing up gold in the rivers exaggerated?"  
"No, I don't think they are, as I be-  
lieve that there is an immense solid field  
of gold and the gold dust is washed down  
the river. The men with whom I talked  
did not complain of any lawlessness. When  
you consider that the places where the  
gold hunters now make their head-  
quarters are places of 10,000 inhabitants  
or more, and were barren fields only a  
short time ago, you can imagine the rapid  
growth. These places are guarded by  
mounted police and the United States has  
established a complete system of courts  
but things are running peacefully. The  
talk about scarcity of food is not half  
true and is done to keep the crowds  
away."

"Would you advise young men to go to  
Alaska?"  
"We'll, it would depend on the young  
men were. If I knew any young men  
who were robust and willing to work hard,  
I should think they could succeed. They  
can't go there and pick up a grip sack of  
gold and return the same day. There is  
no question about their being able to find  
gold but they will have to work for it. I  
am afraid our Portsmouth expedition will  
be rather late to escape the jam of peo-  
ple, but one thing, they will have a vessel  
of their own, and with their own cutter  
they ought to reach the very heart of the  
gold country. The next two years will wit-  
ness some big developments in the Alaskan  
regions."

Mr. Jones was greatly pleased with the  
immense growth in population at Seattle  
where he owns a steam railway. In speak-  
ing of business in the west he remarked:  
"It is more than good, and if the farmers  
get another crop like last year they will  
buy up the east."

**Has He Any Sisters?**  
A very peculiar wager was carried out in  
Waterville by which a Waterville man ac-  
quired considerable local fame, but in con-  
sequence of which his life is in a precari-  
ous condition.  
F. L. Libby and Peter Lacey, both bar-  
bers, wagered \$750 to the effect that the  
latter could not consume 10 pounds of  
chocolate cream.  
The eating was to be at one sitting and  
Lacey won.

## GOSSIP ABOUT TOWN

Interesting Paragraphs Written for  
Saturday Night Reading

On Monday the citizens will appear be-  
fore the board of mayor and aldermen to  
present their claims for and against the  
location of the Portsmouth Horse Rail-  
road through the streets named in their  
petition. Many expect a lively hearing  
but it is doubtful if there is any great ex-  
citement. General Manager Gerald does  
not anticipate any trouble.

It was pleasing to learn that General  
Hyde of the Bath Iron Works was in fa-  
vor of a dry dock at this naval station.  
No man in New England, outside of the  
senators and congressmen has more in-  
fluence with the navy department than  
Mr. Hyde. He can render valuable aid  
in securing an appropriation and would be  
a valuable man to have appear before the  
naval committee in favor of the dock.

In a letter to THE HERALD regarding  
the dry dock project at this station, Sen-  
ator Gallagher closes: "The New Hamp-  
shire delegation is alert, and will do every-  
thing possible to protect our interests in  
that particular." The work of the dele-  
gation is progressing finely and the chances  
are growing more favorable every day.  
The only fear now is the hand of the  
man who is sworn to work the econ-  
omy dodge.

Matters have once more resumed their  
normal state in police circles and the new  
assistants to Chief Estabrook are proving  
the right men in the right places. As-  
sistant Marshal West makes a perfect look-  
ing assistant and looks natty in his new  
uniform. Captain Hiltner is proving  
popular with the men and is giving perfect  
satisfaction. The position is one that re-  
quires ability as the captain is chief of po-  
lice at night and is called upon to exercise  
authority and judgement.

The hearing at the county court house  
on the electric railroad will not take place  
before noon on Monday and from the le-  
gal talent to appear it is evident that the  
hearing is not to be without plenty of ex-  
citement in the oratory line. Judge S. W.  
Emery appears for electric road Judge  
Lacey is to appear for the reconstituted and  
City Solicitor John W. Kelly for the city.  
The citizens are greatly interested in just  
what action the board of aldermen will  
take and the outcome will be awaited  
with the closest interest.

## Navy Yard Notes

Boatswain Patrick Haler, U. S. N., ar-  
rived at the navy yard at 330 yesterday  
afternoon with a detachment of fifteen  
blue jackets from the Lancaster for the  
Albatross.

F. D. Staples has been required as a  
boatbuilder.

Commander R. E. Impey, U. S. N., is  
acting as captain of the yard during Cap-  
tain Robeson's absence.

The old dry dock at this yard will  
serve to use for the docking of all vessels  
of the size for which a dock, during the  
two years that it will require to build the  
new dock. Considerable work can be  
done at this yard by using the old dock,  
and as there are several vessels building  
at Bath to be docked here, it is, in the  
opinion of men who know, well not to  
condemn the present dock.

Captain H. B. Robeson, U. S. N., left  
this morning for Washington, D. C., where  
he appears before the examining board  
for promotion as commodore.

Maj. Mead is having many improve-  
ments made at the marine barracks.

## River and Harbor

Just one lone schooner was reported  
below this morning. It was the schooner  
Virginia, Freeman master, from York to  
Boston, with a cargo of lumber.

The steamer Lebanon was expected  
here last evening, but is all probabilities  
will arrive some time today.

Schooner Dreadnaught is on the way  
to this port from Norfolk with a cargo of  
pig iron.

The steamer Potomac, Captain Han-  
sen, cleared for Portland today after a  
barge and will tow the same to Philadel-  
phia.

Schooner Charles A. Campbell is du-  
ling tomorrow with a load of coal  
from Philadelphia.

E. Newton and Son have shipped a  
large quantity of fish to Boston in the  
last two days, the result of several good  
bats made by the fleet lately.

Another schooner, the R. M. L. Rich-  
ardson, left the port of Boston today with  
a cargo on board bound for the Klondike  
gold fields.

## Portsmouth Girls Don't Need It

In some parts of China the young wo-  
men wear their hair in a long single plait,  
with which is interwoven a bright scarlet  
thread. This style of ornamentation de-  
notes that the young lady is marriage-  
able.

Superintendent Bean's report of the af-  
fairs of the institution under his charge is  
of much interest. The number of inmates  
on January first was 183, of whom 31  
were prisoners, 66 insane and 86 boarders  
and pauper; five of the prisoners were fe-  
male. There were 11 who deserted, eight  
to be captured and returned. During the  
year the average was 183. Six died,  
against 24 the year previous, 11 males  
and five females, of which 85 years, you  
agest one week; average age 57 years.

The crops of the farm for 1897 were  
estimated to be 160 to 180 tons, 250 tons  
ensilage, 200 tons straw, 700 bushels pota-  
toes, 2,500 pounds of beans, 600 pounds of  
cucumbers, 600 bushels of corn, 1,000 pounds  
of pumpkins, 2,500 head cabbage, 300 head  
celery, 50 bushels onions, 35 bushels peas,  
166 bushels oats, 40 bushels rye, 15 bush-  
els beans. Since April 15, the value of  
crops sold was \$2,152.40; pigs and sheep  
sold, \$314.86; lambs sold, \$92.86; calves  
sold, \$51.25. There were dressed and  
used on the farm 2,100 pounds of pork,  
3,400 pounds beef, 300 pounds mutton,  
besides 450 dozen eggs and 95,000 quar-  
ters of skim milk.

The cost per week for supporting pri-  
soners, indigent soldiers and help  
for non inmates from January 1st to Dec-  
ember 31st, was \$1,850.00.

## Musical Service

Unless the weather be stormy the  
music of Christmas Sunday evening will  
be repeated at the vesper service at the  
North church on Sunday. In response to  
a general request the three quartet: ren-  
der "The Coming of the King" by Duffley  
Back. It will be helpful if persons hav-  
ing the order of worship used on the for-  
mer occasion will bring this order with  
them.

## Almid Winter Mass

Joseph Berry of Rye, employed as a  
shipwright at the navy yard, fell over-  
board during the docking of the Alliance  
yesterday afternoon and as the other crew  
was at zero he received a bad cold and  
was hauled out by his fellow workmen  
after a struggle.

## THE BICYCLE OUTLOOK

Prospects Ahead for a Busy Season  
With the Bicycle Dealers

The prospects of a good bicycle busi-  
ness in Portsmouth the coming season is  
very good, and the dealers around town  
have already commenced to prepare for  
the same. The advent of the chainless  
safety adds new life to the bicycle trade,  
as it not only tends to keep the price of  
wheels up, but makes the chain driven  
wheels look out of date. Therefore the  
bicycle crank who thinks that he is not in  
it unless he has the latest thing out, will  
sell his old wheel for a little or nothing  
and buy a new chainless.

Mr. W. W. McIntire, the pioneer of  
the bicycle business in this city and agent  
of the world renowned Columbia bicycle,  
has already received orders for a number  
of chainless wheels, and is much pleased  
over the outlook for the season of '98.  
The Columbia people were the first to  
put a chainless wheel on the market, and  
as they never put out any new idea with-  
out first giving it a severe trial and test,  
the cranks may be sure that a chainless  
bike is the proper thing.

Most of the other manufacturers are  
making a chainless wheel, but their agents  
in this city are not pushing them like the  
Columbia people are, preferring to wait  
and see how the public will take to them  
and if they will stand the racket.

Wheels will be a great deal cheaper  
this season. Those that sold for 75 and  
80 dollars last year, can be bought for 40  
and 50 dollars this year. New high grade  
wheels of 98 model will bring 75 dollars.

Mr. Eugene Williams has had the store  
6 and 8 Congress street entirely renovated  
and fixed up and will probably open for  
business in about two weeks. He has ac-  
cepted the agency for a new line of wheels  
at prices varying from 30 to 75 dollars.  
M. P. Alkon has his 1898 models al-  
ready in stock and expects a good season.  
The other agents have not made much of  
a move yet, but in another month will see  
the season fairly opened with everybody  
taking wheel.

## What Prof. Bush Didn't Know

Just think of it, the little grass plot on  
the southern side of the custom house  
building topped off into a prize ring and a  
howling mob of sports dancing about the  
enclosure while the pugilists pound each  
other into filling for chopped ham and  
wishes.

What would poor old Col. Gregg do, he  
who takes so much pride in keeping the  
grass green during the summer months  
and is death to every canine who dares  
step foot on Uncle Sam's domain?  
It is terrible to anticipate but such may  
yet be the fact if the ruling of a western  
court has any weight. The judge de-  
cided that the state officers have no juris-  
diction on United States grounds and as  
Uncle Sam provides no statute to prevent  
this offender was discharged.

If this holds, and nothing is done to  
change the statutes, an organization may  
be formed to pull prize fights at stated  
intervals on the public grounds. It  
would doubtless be a successful venture  
so far as the size of the crowd drawn  
might go, while choice positions in the  
windows of adjoining buildings would sell  
at a premium to spectators with money to  
burn. Chief Ennis would and the entire po-  
lice force might stand and look on but  
they could do nothing except grapple them  
together, for all their authority  
vanishes when they enter a United States  
reservation.

Jennie Greenbank, is passing a few days  
in town with his parents.

A party from this place made the trip  
to Badger's island via the electric, Wed-  
nesday evening and spent the evening  
with Sergt. and Mrs. Patrick Gallagher  
at their cozy little home. Sergt. Gal-  
lagher was for several years in charge of  
Fort McClary and was one of the most  
popular men ever stationed here.

Tickets for the coming masquerade ball  
of the motormen and conductors of the  
P. K. and Y. street railway, are selling  
well and the ball is sure to be a suc-  
cess both financially and socially. The pro-  
ceeds are for a worthy object, and the  
people are giving the boys their hearty  
support.

The monthly meeting of the Seamen's  
aid society will be held Sunday evening,  
Jan. 30, at the Free Will Baptist church.  
This is the annual meeting and election  
of officers will occur.

Mrs. Kittredge, wife of electrician E.  
K. Kittredge, has gone on a visit to her  
former home in North Carolina. Mr.  
Kittredge will board with Lewis Norton  
during his wife's absence.

The improvements on the Free Will  
Baptist church are progressing rapidly.

this morning. Rev. Father O'Callaghan

the floral tributes were most beautiful.  
Interment took place in Calvary cemetery.

## Load of Hay Tipped Over

A load of hay belonging to a York  
farmer capsized on Market street near the  
foot of Deer street yesterday and had to  
be all pitched off before the rack could be  
righted. The accident was due to the  
load being a little top-heavy and the  
driver trying to turn around in too short a  
space.

## Weak, Tired, Nervous

Liver and Kidney Troubles and Palpi-  
tation of the Heart—Appetite  
Poor and Could Not Sleep.

"For nearly 10 years I have been  
troubled with my liver and kidneys and  
palpitation of the heart, and was under  
the doctor's care most of the time. I  
could not lie on my left side. My ap-  
petite was poor and I could not sleep. In  
January the grip confined me to the  
house. I was very low and was attended  
by the very best physicians I could get.  
It seemed as though nothing would  
help me. In March I began taking  
Hood's Sarsaparilla. In less than a week  
I could get a good night's sleep. I con-  
tinued taking Hood's Sarsaparilla and  
am now able to lie on my left side which  
I had not been able to do for years. My  
appetite is good and I have gained in flesh  
and strength." MRS. NICHOLAS MAAS

## Dark Days.

The person who by overwork or excesses  
has brought on a condition of nervous  
prostration, nervous debility and loss of  
vigor is greatly to be pitied. There is no  
affliction worse than this, because it effects  
body and mind and ultimately every part  
of the human system. The days are dark,  
and the nights full of woe. But you should

# The Weakness of a Woman.

A woman who has suffered eighteen years, who has been cured after a life of misery and lives again in the sunshine of happiness, speaks to other women in words of no uncertain meaning.

Just a woman's story. Not strange because it happens every day, not romantic or thrilling, but just a story of misery and suffering such as only women know.

For eighteen years, Sara E. Bowen, of Peru, Indiana, carried a burden of pain. Night and day, without respite, she suffered the most dreadful experience the ever fell to the lot of woman.

That she did not die is almost beyond belief. That she is well to-day is a miracle. That she is well to-day is a miracle. That she is well to-day is a miracle.

For eighteen years I suffered with weakness peculiar to my sex. I was a broken down piece of humanity, a shadow of a woman.

"My brain was tortured until I could remember but little. I could not sleep or eat and was reduced in weight to a mere skeleton. What little I did eat could not be digested in my weakened state, and caused me untold misery."

"My skin was muddy, my eyes were heavy. I was dizzy all the time and to-day I am well. I was prescribed for me without avail. Medicine was resorted to and taken in quantity but it did no good."

"Time and time again I was at the brink of despair. Day by day my trouble grew worse, and dark indeed was the day before my deliverance."

"A friend of mine told me about Dr. Williams' Pink Pills for Pale People and what they had accomplished for others in my condition."

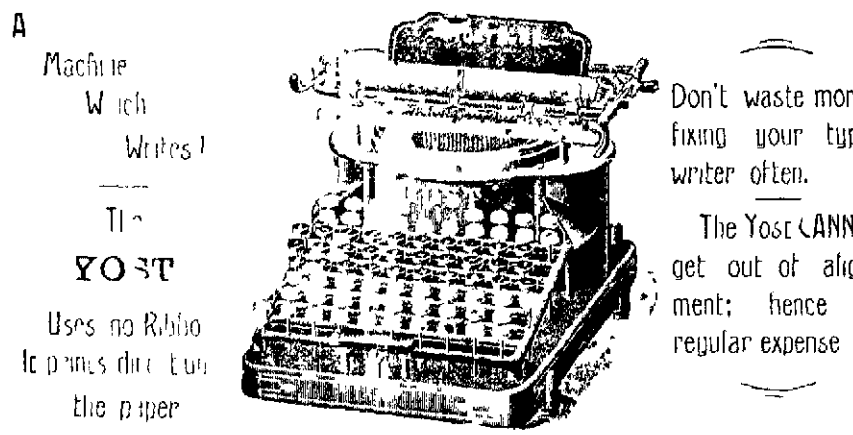

"It was the first glimpse of the sun of happiness through the dark clouds of misery. I bought a box and took them. Even then I felt their effects. I bought more and continued to take them until I was well and strong."

"They liberated me from the most terrible bonds that ever tortured a woman. They brought me new life when death was welcome."

"I recommend them to my friends, and I do not hesitate to say to every suffering woman in the world that Dr. Williams' Pink Pills will cure her."

Dr. Williams' Pink Pills for Pale People are a specific for all forms of weakness. The blood is vitalized and becomes pregnant with the elements of life. The nervous system is reorganized, all irregularities are corrected, strength returns and disease disappears. So remarkable have been the cures performed by these little pills that their fame has spread to the far ends of civilization. Wherever you go you will find the most important article in every drug store to be Dr. Williams' Pink Pills for Pale People.

Vote Taken on Giving Silver to the Holders of Bonds.

ENDORSEMENT OF THE PROPOSAL.

Senator Aldrich Declares Sound Money Men's Purpose.

Washington, Jan. 29.—After a debate animated at all times and occasionally animated at times, which occupied the greater part of this week the senate last evening by the vote of 47 to 32 passed the Teller concurrent resolution. The resolution is a practical reaffirmation of that of Stanley Matthews in 1878 and is as follows: That all the bonds of the United States issued or authorized to be issued under the said acts of Congress, hereinafter recited, are payable in gold and interest, at the option of the government of the United States, in silver dollars of the coinage of the United States containing 412.5 grains each of standard silver, and that to the extent of the payment of said bonds in silver, the interest on said bonds, principal and interest, is not in violation of the public debt law in derogation of the rights of the public creditor.

Mr. Aldrich spoke of the circumstances attending the passage of the Stanley Matthews resolution in 1878. To him it did not seem that the free coinage of silver in favor of the free and unlimited coinage of silver. Other coinage measures were then pending and when one of these came over from the house the senator from Colorado (Teller) voted to strike out the provision for the free coinage of silver and voted for a limited coinage, which was then passed.

Mr. Aldrich declared that when he was being glibbed on the crossroads of public opinion for alleged inconsistency he wanted it known that the Colorado senator and the Ohio senator who introduced the resolution in 1878, Senator Matthews, had voted to strike out a free coinage provision.

Mr. Teller explained at this point that his vote in 1878 referred to by Mr. Aldrich was given not because of opposition to free coinage but because it was not practicable then to get what was wanted.

Mr. Aldrich said he had not needed the declaration. Yet to disprove the charge this issue was the opening of a contest between those who favored a cheaper money and those who believed the United States was bound at every hazard to maintain the parity of every dollar ever issued by the government.

At a time when the Republican party was seeking to strengthen the currency of the country, this measure was brought forward. We intend to meet this issue squarely, declared Mr. Aldrich. We are responsible to the great party we represent and we propose so far as we can to maintain the honor and the credit of the government.

Mr. Aldrich declared that the resolution was an absurdity in that it was a concurrent resolution. Hence it would be inoperative. Hence it would be inoperative. Hence it would be inoperative.
